Art Unit: 3738

This application is in condition for allowance except for the following formal matters:

In Figure 18C, “166” should apparently be --466--.

In the specification, on page 1, the sentence on line 30 lacks proper syntax. On page 2, the sentence(s) on line 1 lacks proper syntax. On page 2, line 2, the letter “b” is not understood. On page 2, line 4, there should not be a comma at the end of the line. On page 3, last line, the “s” should be deleted. On page 6, lines 17-18, “instrument” should be replaced by --instruments--. On page 10, the sentence on line 16 lacks proper syntax. On page 15, lines 12-14 lack proper syntax. On page 20, line 19, “for” is misspelled. On page 23, line 25, there should apparently be a comma after “means 305”. On page 27, line 8, “D₉” should apparently be --D₇--. On page 30, line 22, the comma should be deleted. On page 31, line 28, the reference character “w₄” is inconsistent with what is shown in Figure 18B. The sentence on page 36, lines 13-17, lacks proper syntax. On page 37, line 16 lacks proper syntax, and “341” should apparently be --340--; also, the angles on lines 16 and 17 should be interchanged in view of what is illustrated in Figure 23. On page 38, line 10, reference character “634” is not believed to be shown in the drawings. On page 42, line 15, “740” should be replaced by --710--. On page 43, lines 18 and 23, reference numerals “764” and “720”, respectively, are not believed to appear *in any of Figures 30-35*; in Figure 36, “764” is used to represent something other than an “extension portion” (page 43, line 18). *The Applicant is asked to proofread the rather lengthy disclosure for other errors.*

In claim 15, lines 3-4 and line 7, “connection member” should be replaced by --connecting element-- (both instances). In claim 15, last two lines, the language “which is between about 1.0 mm and about 1.7 mm” is grammatically arranged so as to modify “forceps” rather than “distance x”, and the claim should be revised so as to avoid confusion.

Art Unit: 3738

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
